Subject: SSCI Questions

25X1

    Attached are the DDA related questions that Keith Hall, from the SSCI gave the Comptroller on our 1986 budget. Would you please have your offices prepare a written response to each of the questions by COB Friday 8 March. Additionally, the Office of Communications (OC) should be prepared to brief Mr. Hall on questions 38 and 40. The briefing will be scheduled at a later date. Also, OC should address only their portion [   ] on question 39. If you have any questions please give Dave or me a call.

MEMORANDUM TO: Group Chief, *AG*

25X1   FROM:
                    _____
                    Chief, Analysis Group

        SUBJECT: Congressional Questions

        Attached are Congressional questions for answer by your Directorate. The
answers are due to AnG by *12 MARCH*_____. This set of questions
will be titled *SSCI GENERAL QUESTIONS*_____.
Also attached is a sample format for use by your Directorate or Group in
preparing the answers.

        Each numbered question and its answer should be typed on a separate page.
As shown on the attached sample format, each page should be headed by title
and date. The title and date for this set of questions are _____
    SSCI GENERAL QUESTIONS, ~~Question~~ *Q 38-45 and 47*
_____.

        If the numbered questions are subdivided, e.g., 1.A, 1.B., 1.C., the
answers to these subparts may appear on the same page(s) as the numbered
question or on separate pages. If you answer these subparts on separate
pages, however, you should again follow the sample format and ensure that each
page is headed by the correct title and date.

        If your Directorate is preparing these answers on a word processing system
compatible with the system in the Comptroller's Office, the discs containing
your questions and answers should accompany the written material.

        You should ensure that the responses to all questions are properly
classified.

        Please provide AnG with the original and a copy of all written material.

        We would appreciate receiving your responses to these questions as they
are completed; you do not need to wait until you have the entire set before
passing the answers to us. If you are aware that any answers will not be
forthcoming within the above deadline, please let us know.

_____ is the AnG staffer responsible for coordinating   25X1
all questions and answers in this set. You should provide your answers
directly to him/her. Also, the AnG secretary will maintain a log on the
questions and answers and will be prepared to answer any queries about their
status in the review process.

QUESTION AREA: DCI's Annual Report to the Congress

Period
QUESTION.   In discussing computer-based aids to intelligence analysis, the
     Report states that a plan has been adopted for a Community Information
     Retrieval System (CIRS).

25X1

2 spaces
A. Given the plethora of computer based analyst aids in the NFIP, why is
a new system required?

2 spaces
ANSWER. The Community Information Retrieval System (CIRS) plan is a
long-range plan to provide greater access to existing, and developing,
Intelligence Community information systems and data bases.
(NSA--WINDMILL/SOLIS; AF, FTD--CIRC; DIA--SAFE; NPIC--NDS; and CIA--SAFE).
The Plan does not propose any new computer system. It provides for hardware
and software upgrades to the above-named systems and the coins and DODDIS
networks to enable a greater sharing of the Community's information
resources. It was developed in response to congressional tasking and
Community studies recommending more efficient utilization to the Community's
computer systems and data bases.
